

## OPERATIONAL EFFICIENCY

We offer transportation and logistics solutions to help you organize your events, whatever your constraints (budget, timing, location, technical specifications...).

### YOUR INTERNATIONAL TRANSPORTS

#### Our solutions

- Diversity of solutions: proposal of the best options according to the type of your cargo
- Agile offer: multimodal transport (road, Ro-Ro, sea, air, rail) including cross-trade
- Special transports and exceptional convoys
- Control of operational processes
- Assistance in the establishment of ATA carnet
- Meticulous preparation, packing, strapping, craning
- Control of customs processes
- Reinforced national and international network: collaboration with specialized networks in projects
- Customized IT services (Track & Trace, etc.)

### OPERATIONAL EXCELLENCE

#### Dedicated teams and services

- Single point of contact trained in the requirements of your industry and capable of responding to all your technical issues
- Excellent knowledge of the specificities of OOG (Out Of Gauge) parcels, which are generally oversized, heavy, fragile and/or of high value
- Excellent coordination: privileged contact with all supply chain actors
- Vigilance: verification at all stages of the operation
- Flexibility and availability: on-site visit, examination of the smallest technical details of the shipment
- Advice and recommendations: Incoterms, freight security, insurance...
- Proposal force and consideration of the whole ecosystem (news, costs...)
